SHAY'S RESIGNATION

Henry P. Dalton, Esq. Assessor of Alameda county, California

Dear Sir--Public charges having been made to the effect that I have paid to you, and you have cceived from me, the sum of t venty five dollars per month out of my alary of one hundred and tweny five dollars per month, and that such payments were in part made to you by me through Tom M. Robinson your chief deputy, and also to you directly, and that such payments aggregate the sum of a numbered dollars. And in view of the further fact that you require of me a refutation of such charges, you and I and some o hers knowing that they are substantially true, I feel that I cannot comply with your request without telling that which both of us know to be false, and without deceiving the public

While I would be willing to render to you, as my chief, loyal and leg timate service, I feel that I cannot resort to deception to do so I would forfeit my own self-respect and even you, yourself, would look upon me as nothing better than a convenient tool. Consequently, I cel that any further association with you in the office of County Assessor would be embarrassing to both of us, and that I must therefore of necessity at this time tender to you my resignation, which I accordingly now do, and ask that it take effect at once. FRANK M. SHAY.

GOLD COIN STRANGE TO CHICAGOANS WHO BITE IT TO PIECES

CHICAGO Ang 3—A new pertectly good \$10 gold piece reached
Chicago Saturday from the mint at
San Leancisco. It was paid out
it noon to a stock vards saloon
keeper, who exchanged it for a
packing company check, presented
by Rodnick Pepstein a "cleaner
boy," employed by Swife & Co. He
tried to pass it on four saloonkeepers and his landlord but they
pronounced it bad money.

Then the boy had an idea. He
went to Morris Grossman's pawnsliop "back of the yards," and
made a small purchase. When he
tendered the coin Grossman threw
it on the floor. It didn't ring
flom he set his teeth on it. The
hon jawed" pawnbroket's incisors bit through it as though it
were hot cake. He handed it buck
with a superior smile.

As a last resort Expisien vesterday took the two pieces to the
secret service department in the
tederal building. He was overpoyed when the expetts pronounced it good money and gave
him a bill in exchange. CHICIGO Ing 3-1 new per-

Melvin and Sloss for Supreme Judges.

At the coming primary election the Republican voters will be called upon to name two cand dates for Judge of the Supreme Court. The terms of Hon. Henry A. Melvin and Hon. Max C. Sloss, who vin two years ago many voters are under the impression that their terms will not expire this year.

As the successors of Judges Melvin and Sloss will be elected to full terms of twelve years each it is incumbent upon the Republican experience and worth.

Judges Melvin and Sloss should be retained in their positions. Their fitness has been demoistrated. Both are able and upright men who have proved on the bench but they are admirably qualified for the judicial office. Compared to the other candidates for the Supreme Bench, they have superior qualifications for the office to which they aspire and a preferred claim to the confidence and good will of the people of California.

Judges Melvin and Sloss both s rved on the Superior Bench prior to being called to the court of last resort. Both were first appointed to fill vacancies because their judicial fitness had been abundantly demonstrated on the nisi prius bench. Both were subsequently nominated and elected to the Supreme Bench. Both are graduates of the University of California, and received their legal training in the law schools and count of this State.

Judge Melvin served for reverally ears as Assistant District Attorney of Alameda county and proved himself an able and successful advocate at the bar. The record he made as Assistant District by a spirit of progressiveness. His latest suggestion, which is un-Attorney earned him his elevation to the Superior Bench, just as his record as Superior Judge caused (his promotion to the Supreme Bench. While on the Superior Bench histolecisions were almost inwariably sustained by the Supreme Court.

Judge Sloss-was a Judge of the Superior Court of San Francisco when he was elevated to the Supreme Bench. As in the case of Judge Melvin, his record assi trial Judgescarned him a high place in the esteem and confidences of lawyers. His appointment to the Supreme Bench gave universal satisfaction to the bar throughout the State, and this feeling of setisfaction has been strengthened since he became a member of the court of last resort. By lawyers of calibre and character Judge Melwin is held in high esteem, both for his talents and attainments as aclawyer and jurist and his personal character as a citizen.

The retention of Judges Melvin and Sloss on the Supreme Bench is in accord with sound policy. They have graced their high and honorable offices with fidelity and capacity; they are familiar with the work of the Supreme Court, and have shown a special aptitude for it. Moreover, they deserve well of the people. The services they have rendered merit commendation and renewed trust. Hence the Republican voters should, without fail, designate Judges Melvin and Sloss as their candidates for the Supreme Bench.

Oakland's Park Development.

The first annual reports of the Cakland Park and Playgrounds Commissions which are printed together in a handsomely illustrated volume will be a revelation to mostar? Oakland's own citizens. In-the will go good or he vows that he will not. gleed, it may be truthfully said; that www residents of Oakland are conscious of the fact that the city contains twenty-nine public parks, most of which are in a nadvanced state of improvement.

Until the Park Commission was reated the development of the public parks was carried on in a haphazard way without any definite plan to work upon. The commission is, however, working out a scheme of park development which promises to produce the best possible results. Wisely, the commission has adopted Lake Merritt as the central point in its plan of park development. It is the aim of the commission to make all of the park lands, as far as it is possible to do so, tributary to this ranguificent water park to further its utilization and improvement. While the financial resources harpings. placed at the disposal of the commission have been limited and its work has been confined to one brie year's operations, it has acomplished enough already to give any thoughtful student a very lear conception of the marve ous possibilities to be achieved in the working outs of the general park scheme. The total cost of park them you can FORGIVE. maintenance for the year has been \$96,310.43, and of improvements

Among the improvements is the development of an artesian water system at a cost of \$10,000 which puts a large area of the park lands absolutely independent of my other source of water supply for the irrigation of lawns and flower beds and the propagation of tree growth. The development of this water plant is in the line of the conservation of natural cresouries and an economic measure the greatest importance.

The commission is emitted to all the more credit for what it has done, because its members have given their time and services the public gratuitously. Withou any bluster or blowing of umpets these gentlemen have carried on the labor of love quietly and unostentationsly, and unconscious to the majority of most of our citizens they have alread; developed nearly a score of beauty spots out of what were form rly waste places, which in time will be linked together into one tarmonous chain of charming park

Thonor the Memory of Sol Kahn.

By resolution the Chamber of Commerce and the Merchants' Exchange have recommended the closing of all business houses for one hour next Monday. August 8, while the funeral rites for the late! Solomon Kalin are being held. The action of the two commercial bodies is commendable from every point of view, and THE TRIB-UNE hopes the recommendation will be generally heeded. It is eminently fitting and proper that the business community of this city should give some token, some manifestation of the respect in which Mr. Kahn was held and the sorrow his death has occasioned. Mr. Kahn was a pioneer merchant of Oakland and was notably successful in his business pursuits, which were conducted in a spirit of equity that challenged admiration, and in all his relations with the public his conduct was signalized by a keen sense of justice and a trict regard for the rights of others. His business methods were bove reproach. He paid every obligation of citizenship with alacy and liberality, and as a number of the city's commercial organizations strove to instill a moderate and progressive spirit. In all respects his example was good and his influence wholesome. The Oakland public owes something to his memory and services, and cessation from business for an hour next Monday is a seanty meed f respect to pay to his memory.

Judge Samuels ought to run well with the Avenger on his trail.

Supervisor Kelley's Public Service.

Drawing to the close of his second term as Supervisor from the Third Supervisorial District of Alameda county, Joseph M. Kelley is again a candidate for re-election at the urgent request of his are now filling unexpired terms, wil expire with the year, and it friends. Mr. Kelley has been a pushing and progressive member of will be necessary to elect, in November, successors to both, for full the board and a brainy and vigorous force of that organization. He terms. As Judge Sloss was elected four years ago and Judge Mel- has been always to the front in favor of radical improvements for the general benefit of the county. No measure that meant he material progress of the county, the betterment of its public roads, the improvement of its public buildings or the greater efficiency of any hraich of the county government ever encountered the opposition voters to select as their candidates men of tried capacity, judicial of his vote. He has a multitude of friends, staunch and true, who appreciate the service he has rendered the county as Supervisor from

Kelley served two successive terms in the State Assembly before becoming a Supervisor. The marked ability which he displayed as Assemblyman induced his constituency to elect him as its Supervisor and to re-elect him four years ago.

As a Supervisor Mr. Kelley has never failed to care for he maerial interests of his own district. He has always been dep indable also to support the best interests of the county. His vote has always been cast for the betterment of the county roads, the construction of permanent county bridges and the erection of substantial modern public buildings. The eight years during which Ke ley has been Supervisor has been notable for more substantial per nament county improvements than have marked the history of any previous eight years in Alameda county's history, and the record shows in every instance that his vote has been cast in their favor.

During his whole official career Mr. Kelley has been actuated deniably good, has been to relieve Oakland harbor of the obstructions to commerce and navigation occasioned by the drawpridges and open an avenue for carrying the road traffic between the twin cities of Oakland and Alameda by tunneling under the estuary. He has started a campaign of education for this important pullic improvement which must sooner or later be adopted. Indeed, the way the future is opening the sooner the scheme is accomplished the better it will be to the interest of the communities most lirectly concerned and to the county at large. It is, therefore, specially important that the promoter of this great enterprise should be retained in the public service to perfect the plans which he has formuiated and thus assure their ultimate consumnation,

lack London seems to think his grievance against Judge Samuels justifies him in making a mean fling at the entire Hebre y race. Because Jack London got into a scrap with a dive-keeper and landed in the lock-up is no reason why an anti-lewish riot should be started. Moreover, London's public letter berating Judge Samuels furn shes proof that Judge Samuels did fail in his duty when the story-writer was on trial before him. It is possible that a jul sentence would not have improved London's manners, but it would probably have caused him to respect the law and the judicial office.

Ten million depositors, one hundred thousands ledgers, and four thousand totals among the postal bank estimates which government experts are at work on. The installation of Uncle Sam's endless chain of banks calls for great quantities of supplies and office paraphernalia, and Postmaster-General Hitchcock's department modestly admits that the new venture just authorized by Congress is the biggest lump contract it ever had on its hands, Indeed, it is doubtf ! if any departa branch of the 1 blic service that had such a large inginning. AMERICAN LEAGUE S.S. BLOOD POISON

Ocntagious Blood Poison is the most powerful and destructive of all blood disorders. It corrupts and vitiates the entire circulation and manifests itself in the most hateful and loathsome symptoms, such as ulcerated incut and throat, copper-colored spots, and even sores and ulcers on differment parts of the body. The poison causes the hair and eyebrows to fall out, and sometimes the finger hals come off and the entire giandilar system is and sometimes the finger hals come off and the entire giandilar system is attacked. No medicine can cure Contagious Blood Poison which does not rid the circulation of every particle of the insidious virus.
